

Angular App Development

(12th - 14th August 2022)

To begin, the workshop introduced the prerequisites of developing Angular Apps to the students. On the following day, the students were guided by the trainer Mr. Debjyoti Majumdar who made the students familiar with the topics of HTML, CSS, and TYPESCRIPT. As the workshop drew to a close, the students applied their knowledge through their projects

Total Participants: 88 (Approx.)
