

Following are the list of events organized by Computer Society Of India (CSI), HIT Students' Branch, Departments of Computer Science & Engineering at the Haldia Institute Of Technology in the past two years:

Data Analytics with Python

(28th - 30th April 2023)

In our data-driven world, the ability to manipulate and interpret data is no longer an optional skill - it is an essential one. Participants gain the competitive edge needed in today's tech market. Our comprehensive program will equip you with the essential skills needed to navigate the ever-growing data landscape confidently and will also help you to earn MAR points and some exciting prizes.

The poster is for a workshop titled "DATA ANALYTICS WITH PYTHON" organized by the Computer Society of India (CSI) HIT Students' Branch. It features a dark blue background with a glowing circuit pattern and a large Python logo in the center. The text is white and yellow. Logos for HIT and CSI are in the top corners. The event details include registration times, fees for members and non-members, dates (28th-30th April 2023), and location (CCF Lab, 2nd Floor CSE Dept.). Contact information for organizers is provided at the bottom left, and payment details and a QR code are at the bottom right.

COMPUTER SOCIETY OF INDIA
HIT STUDENTS' BRANCH
Presents
